Kugler GmbH Statement on the non-use of hazardous substances

Dear Business Partner,

Kugler GmbH, as a global partner for ultra-precision technology and high-grade precision parts, is committed to environmentally responsible management of our manufacturing facilities and product offerings. As an ISO 9001 registered company, Kugler GmbH maintains controlled business-, design-, manufacturing- and purchasing processes to competitively service our worldwide customer base.

Considering the use of hazardous substances within our products, we like to inform, that Kugler GmbH is not intentionally using any substances which be opposed to the compliance our products to the following international regulations and directives:

- (A) Directive 2011/65/EU of the European Parliament and of the Council on the Restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS)
 - a. All electronic components and their homogenous sub-components of our products are in compliance with the international RoHS requirements for all 10 (6+4) substances.
 - b. This declaration does not extend to, or apply to any product subjected to unintended contamination, misuse, neglect, accident, improper installation or nonobservance of instructions furnished by Kugler GmbH.

- (B) Regulation (EC) no 1907/2006 of the European Parliament and of the Council Concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)
 - a. REACH requires producers of articles to register any substances contained in their products, if those substances are intended to be released during use. However there is no intended release of substances from our products during use.
 - b. For products which contain substances listed on the Candidate List of Substances of Very High Concern (SVHC) <https://echa.europa.eu/de/candidate-list-table> in a concentration above 0.1% (w/w), Kugler GmbH will provide all sufficient information, available to us, to relevant customers.

Kugler GmbH will review the given regulations and directives on a regular base and will take all required actions to ensure a continuous compliance of our products. Please feel free to contact the author of this letter with any further concerns or questions on any matters regarding the use of hazardous substances.
